CALENDARS 2017

# WHAT DO THE COLORS MEAN?

## Green Days are Go Days:

- Commerce, marketing and sales
- Launches in general
- Sending newsletters and communications
- Teaching classes
- Hosting events
- Celebrations of any kind, either work-related or spending time with family and friends
- Romance and dating

## Types of Green Days

There are four types of Green Days. They are designated by roman numerals I – IV. **Paid subscribers get extra training on how to use the nuances of these Green Days.** Here's the short version:

- I** Light and Swift Days – good for beginnings and new endeavors
- II** Soft and Tender Days – good for romance and weddings, for learning music, dance and the arts, for spending time with friends, creating social connections, enjoying beauty, designs and finer things.
- III** Fixed – good for establishing long term objects, foundations and things that will stay a long time or be permanent. This day has less flow, but can be used for building homes, communities and non-profits.
- IV** Moveable – good for moving of any kind; from simple furniture, home or office shifts, changes of any kind are supported, from changing routines, residences, commutes, to thought patterns.

## Yellow Days are Slow Days

- Plan extra time for activities; you will be glad you did
- Complete behind-the-scene tasks on Slow Days
- Do desk work and catch-up work on these days, but do not expect high productivity
- Expect traffic or delays in your commute; most things will seem to take longer
- Miscommunications, misunderstandings, and simple mistakes can create extra work or cause delays
- Technology and communications can have technical difficulties. Plan on changing or charging electronic devices as part of the day's delays

# WHAT DO THE COLORS MEAN?

## Red Days are No Days

- No major business activity recommended
- No launches
- No buying homes
- Do not sign contracts in general
- Do not over-do physical exercise or workouts or push yourself too hard
- These are good days for healing, repair, and quiet. Caring for your health, spiritual practices, and moving slower through your day are aligned actions

## Neutral Days

- Live life as usual
- No special confluences occur on these days, which is why they are not designated Red, Yellow or Green
- No distractions or extra attention need to be added to these days, it is nice to 'just have a day' to establish our regular routines.
- This is why the other days are so special, they call you to be aware in a different way.

# UNDERSTANDING THE CALENDAR

## Symbols

	Neutral Day		Days during which Mercury retrogrades
	Yellow Day		
	Mild Green Day		Types of Green Days
	Full Green Day		Full moon
	Red Day		New moon

## Times

All times on the calendars are in **UTC**, Coordinated Universal Time, the international basis for other time zones. UTC is the same time as for GMT (Greenwich Mean Time) and Zulu time.

**Note:** The United Kingdom is not on GMT during summer.

If you want to find your local time zone for an event go here:

<http://www.timeanddate.com/worldclock/converter.html>

GMT = Greenwich Mean Time

BST = British Standard Time

The United Kingdom is not on Greenwich Mean Time (GMT) all year. During Daylight Saving Time (DST) the correct time zone is British Summer Time (BST).

All times are local time for London. Time is adjusted for DST when applicable. Dates are based on the Gregorian calendar.

EDT = Eastern Daylight Savings Time

EST = Eastern Standard Time

PDT = Pacific Daylight Savings Time

PST = Pacific Standard Time

For current time anywhere in the world, please use the **World Clock**: <http://www.timeanddate.com/worldclock/>

Jupiter goes retrograde March 9

**\*Mercury Retrograde in Pisces March 22/23, 2018 – April 15, 2018**

No designation of Green Day Type simply means it is not one of the four types of Green Day energy that day.

The Moon is with Saturn on this day, or opposite it. The day is slower and possibly has obstacles but the delays will improve what you are creating on these days. Let go, be patient. Keep long term goals in mind.
