CALENDARS 2017

WHAT DO THE COLORS MEAN?

Yellow Days are Slow Days

- Plan extra time for activities; you will be glad you did
- Complete behind-the-scene tasks on Slow Days
- Do desk work and catch-up work on these days, but do not expect high productivity
- Expect traffic or delays in your commute; most things will seem to take longer
- Miscommunications, misunderstandings, and simple mistakes can create extra work or cause delays
- Technology and communications can have technical difficulties. Plan on changing or charging electronic devices as part of the day's delays

Red Days are No Days

- No major business activity recommended
- No launches
- No buying homes
- Do not sign contracts in general
- Do not over-do physical exercise or workouts or push yourself too hard
- These are good days for healing, repair, and quiet. Caring for your health, spiritual practices, and moving slower through your day are aligned actions

Neutral Days

- Live life as usual. Which is nice to have 'regular' days.
- No special confluences occur on these days, which is why they are not designated Red, Yellow or Green
- No distractions or extra attention need to be added to these days, it is nice to 'just have a day' to establish our regular routines.
- This is why the other days are so special. You are being called to be extra aware on Red, Yellow and Green Days.

Green Days are Go Days!

- Romance and Exciting Dates
- Open Bank Accounts or Start a Company: Initiate Deals in Commerce, Marketing or Sales
- Starting a Major Project of Any Kind
- Sending Newsletters and Communications
- Hosting Social, Work or Money Making Events
- Celebrations of any kind, either work-related or spending time with family and friends
- Changing or Starting a New Health Routine
